

PC50™

THE NEW GENERATION OF PROTECTIVE MASK

The Avon PC50 is designed and approved for use as a NON-CBRN respiratory device, providing protection in dangerous and contaminated environments, against certain solid and liquid respirable particles, gases, vapors and modest splashes of liquid chemicals.

The Avon PC50 is available in three sizes, with either left or right hand 40mm canister mounts that accept traditional or conformal filters. The standard communication port allows the ability to connect with other radios. The PC50 head harness provides a comfortable and secure fit and is designed for rapid donning and doffing. The Avon PC50 may be fitted with a vision correction system and a variety of outserts for specific operational situations. Designed for the lowest cost of ownership and maximum reliability.

The PC50 is NIOSH approved for use with the Riot Control CTF12 Canister providing protection against CS-CN agents in both vapor and aerosol form and particulate matter.
